Hyderabad, Telangana

Professional Summary

Data Scientist | Machine Learning Engineer | Full-Stack Developer with an M.Sc in Data Science and hands on experience in Machine Learning, Deep Learning, NLP, Computer Vision, and end to end web application development. Skilled in building AI-powered applications, REST APIs, responsive web interfaces, and deploying scalable solutions using Streamlit, Vercel, and modern web technologies.

Education

GITAM University M.Sc. in Data Science	2024 – 2026
ICFAI Foundation for Higher Education B.Sc. in Mathematics	2020 – 2023

Professional Experience

Software Developer Intern Nextenti Private Limited	Present
--	---------

- Developing full-stack web applications using Next.js, FastAPI, and PostgreSQL.
- Building responsive frontend interfaces and scalable REST APIs.
- Collaborating with developers to build enterprise applications.

Machine Learning Intern Indian Statistical Institute (ISI), Hyderabad	May 2025 – Jun 2025
---	---------------------

- Built machine learning models and performed feature engineering.
- Conducted preprocessing, evaluation, and optimization.
- Developed analytical reports and visualizations.

Process Associate – BFS Genpact	Sep 2023 – Jul 2024
---	---------------------

- Processed banking transactions and payment operations.
- Performed KYC verification and customer validation.
- Prepared operational reports using Microsoft Excel and Word.
- Supported compliance and reconciliation activities.

Technical Skills

- **Languages:** Python, Java, JavaScript, SQL
- **Frontend:** HTML, CSS, React.js, Next.js
- **Backend:** FastAPI, Node.js, Express.js, Spring Boot
- **Databases:** PostgreSQL, MySQL, Supabase
- **AI/ML:** Scikit-learn, TensorFlow, NLP, Deep Learning
- **Computer Vision:** OpenCV, YOLO, DeepSORT
- **Data Analysis:** Pandas, NumPy, Matplotlib, Seaborn
- **Tools:** Git, GitHub, Streamlit, Vercel

Projects

Fake News Detection using Machine Learning & Deep Learning

- Developed a fake news classification system using Logistic Regression, SVM, Naive Bayes, and LSTM.
- Applied TF-IDF vectorization and NLP preprocessing.
- Achieved highest accuracy using SVM.
- Built a Streamlit application for real-time prediction.

Traffic AI using Deep Learning

- Developed a traffic monitoring system using YOLO, DeepSORT, OpenCV, and Python.
- Implemented vehicle detection, tracking, and analytics.
- Built an interactive Streamlit dashboard.
- Managed deployment and version control using GitHub.

Photo Vault Application (Ongoing)

- Developing a secure web-based photo storage platform.
- Using Supabase for backend services.
- Deploying using Vercel.
- Managing source code using GitHub.

Certifications

- Machine Learning Internship – Indian Statistical Institute (ISI), Hyderabad
- Web Development & Digital Marketing – Arawinz Software Solutions
